

WHAT IS CLAIMED IS:

1. An anti-snoring composition comprising an anti-snoring effective amount of a solution, comprising a homopolysaccharide at a concentration of from about 0.01 to about 2.5 weight percent, based on the total weight of the solution.

5

2. An anti-snoring composition comprising an anti-snoring effective amount of an aqueous solution, comprising a homopolysaccharide at a concentration of from about 0.01 to about 2.5 weight percent, based on the total weight of the solution.

10

3. An anti-snoring composition comprising an anti-snoring effective amount of a buffered solution, comprising a homopolysaccharide at a concentration of from about 0.01 to about 2.5 weight percent, based on the total weight of the solution.

15

4. The composition of claim 1, wherein the homopolysaccharide is oat beta glucan. 130

20

5. The composition of claim 1, further comprising glycerin. 130

25

6. The composition of claim 1, further comprising at least one member of the group consisting of a vitamin, an essential oil and an-herbal remedy . 130

7. The composition of claim 6, wherein said vitamin is Vitamin A, Vitamin B6, Vitamin C, Vitamin E and/or Vitamin F. 130

30

8. The composition of claim 6, wherein said essential oil may be selected from the group consisting of peppermint oil, lemon oil, sunflower oil and eucalyptus oil.

9. The composition of claim 6, wherein said herbal remedy is licorice root extract.

10. The composition according to claim 1, further comprising slippery elm extract.

11. The composition of claim 1, further comprising polysorbate 20/80. 130

12. The composition of claim 1, further comprising a liposome carrier for encapsulating at least one member selected from the group consisting of oat beta glucan, lecithin, vitamin B6, vitamin E, vitamin A, vitamin C, vitamin F, licorice root, slippery elm extract, prickly ash extract, sweet almond oil and hybrid sunflower oil. 738 135

5 13. The composition of claim 1, further comprising purified water. 135

10 14. The composition of claim 1 comprising oat beta glucan, purified water, glycerin, and pyridoxine hydrochloride. 135

15 15. A composition according to claim 1 in the form of a spray formulation. 135

15 16. A composition according to claim 1 in the form of a throat spray formulation. 135

17. A method of treating nonsurgery-requiring chronic snoring of an individual in need thereof, the method comprising:

18. administering to the individual's pharyngeal mucous membranes an effective amount of an aqueous buffered solution comprising a homopolysaccharide at a concentration of from about 0.1 to about 50 weight percent, based on the total weight of the solution. 135

19. A method of treating snoring in an individual in need of such treatment, comprising administering to the individual an amount of a composition effective to treat snoring, said composition comprising about 0.1 to 50 wt.% of a homopolysaccharide. 135

Sub A 17 20. A method according to claim 19, wherein the homopolysaccharide is oat beta glucan. 135

30 21. A method according to claim 19, wherein the composition is an aqueous solution. 135

21. An anti-snoring composition, comprising water, potassium sorbate, oat beta glucan, glycerin, ascorbic acid, retinyl palmitate, tocopherol acetate, linoleic acid, pyridoxine HCl, extract of prickly ash, extract of slippery elm, extract of licorice root, sweet almond oil, hybrid sunflower, lecithin, peppermint oil, lemon oil, eucalyptus oil, polysorbate 80,
5 polysorbate 20, phenylcarbinol, and disodium EDTA.

22. A method of treating nonsurgery-requiring chronic snoring of an individual in need thereof, the method comprising:

administering to the individual's pharyngeal mucous membranes an effective amount
10 of an aqueous buffered solution comprising water, potassium sorbate, oat beta glucan, glycerin, ascorbic acid, retinyl palmitate, tocopherol acetate, linoleic acid, pyridoxine HCl, extract of prickly ash, extract of slippery elm, extract of licorice root, sweet almond oil, hybrid sunflower, lecithin, peppermint oil, lemon oil, eucalyptus oil, polysorbate 80, polysorbate 20, phenylcarbinol, and disodium EDTA.
